Dear Dr. Lederberg:

As per my phone conversation with your secretary on April 6th,  
I am forwarding copies of our correspondence with Dr. B.R. Fink  
of the School of Medicine of the University of Washington.

Dr. Garfield suggested I contact you to see if you had read  
the paper mentioned in Dr. Fink's letter of January 17, 1979  
and, if you had, to ask your opinion of the proposed book.  
I'm including copies of two reviews of the proposal as well as a  
copy of Fink's vitae.

If there is any other information about the project you might  
wish to know, by all means have your secretary call me and I  
will try and provide it.

Sincerely,

Lyell C. Dawes
